

R K Electrical solutions

About Us

COMPANY PROFILE :

THE FORMATION AND BEGINNING :

We take this opportunity with great pleasure to introduce ourselves as a Manufacture electrical Products as well as provide engineering solutions and services for all type of requirements of Manufacturing, Electrical, Mechanical, Automobile, IT, Civil, Agro-technology, Biomedical engineering business.

'Chaitanya Enterprises' is established in the year 2007. Now chaitanya enterprises was converted in to RK Electrical Solution in 2018. We also utilized our vast experience to fulfill the needs of industry by way of design and supply of power & control panel various Industries.

In short our expertise is in Electrical control systems. We are in this field from last more than 12 years. We have carved a name for themselves known for quality products and timely deliveries.

PRODUCTION RANGE AND ACTIVITIES :

- i) Manufacturing of electrical Distribution panel (PDP)
- ii) Manufacturing of motor control center panel (MCC)
- iii) Manufacturing of Automatic power factor control panel (APFC)
- iv) PLC Automation Panel.
- v) Concept to commissioning (Design, Specification, procurement, inspection, Erection & commissioning) of Industrial Electrification work.
- vi) Test Systems for Low Tension Electrical Rotating Machines.
- vii) Manufacturing Coil winding machine.
- viii) Preventive Maintenance of testing set up
- ix) Maintenance of Electrical Utilities.

MANUFACTURING FACILITIES :

The Infrastructure Details are as follow :

Built-up Area of Industrial shed : 1500 sq.ft.

Electrical Power Connection : 30 hp, 3 phase.

MACHINE SET-UP :

- 1) Shearing machine 2500 x 8 mm
- 2) Hydraulic press brake machine 3000 x 8 mm
- 3) Hydraulic press machine 20 ton
- 4) Welding machine-250A
- 5) High Voltage Breakdown tester
- 6) Digital Megger.
- 7) All type of necessary tools

Infrastructure

Shearing Machine

Press Brake

CO₂ Welding Machine

Power Press

Drilling Machine

SAMPLE

PCC PANEL

PCC Panels are the most essential part of electrical system of an industry from where the power of the industries is controlled.

RK ELECTRICAL SOLUTIONS is widely known for premium quality PCC panels designed and manufactured according to the customer specifications.

Best quality switchgear and busbar are used for reliable and efficient performance.

FEATURES :

- 1) We manufacture PCC panels with rated current ranging from 100A to 4000 A
- 2) PCC panels are manufactured in a perfectly compartmentalized structure.
- 3) Premium quality insulators are used to ensure safety.
- 4) There can be a provision of space heater, thermostat and backup protection if required by customer.
- 5) User friendly, safe and reliable.
- 6) AS per form 3 B.

MCC PANEL

We make MCC Panels as per applications designed by us or as per customer design for a variety of power distribution requirement of the factories.

MCC Panel, a device That is used to control and actualize the performance of an electric motor.

Our products are widely demanded in various industries like Manufacturing plant, process industries, Chemical Industry, Sugar Plant, Textile, Hospital, showrooms.

FEATURES :

- 1) It is equipped with ACB / MCCB/ SFU/MCB, DOL, ATS or Star Delta Starters for automatic/ manual starting and stopping of the motor.
- 2) We provide facility to operate from Local/Remote from MCC.
- 3) We can add are Earth Fault, Reverser Power, Under Load, Over and Under Voltage etc.
- 4) From SCADA, you can measure its power parameters from control room.
- 5) We also offer intelligent MCC which can communicate with PLC, can be start and stop.
- 6) Common Protections provided in MCC are Over Load, Short Circuit, Single Phasing etc.

APFC PANEL

(AUTO POWER FACTOR CONTROL PANEL)

Range : 25 kvar to 500 kvar

Application : All types of industries & commercial units like Manufacturing plant , process industries , Chemical Industry, Sugar Plant, Textile, Hospital, Showrooms.

FEATURES :

- 1) The APFC relay uses intelligent switching algorithm to reduce the number of capacitor bank switching operations required to attain the required KVAR.
- 2) APFC relay gives the facility to operate the panel in manual mode in case of special circumstances.
- 3) The APFC panel is liberally sized. This allows for systematic placement of the components and easy maintenance in future. With forced cooling.
- 4) Capacitor duty contractors [with inrush current limiting circuit] are from: L & T / Schneider / SIMENSE.
- 5) Avoid Penalty.

MOTOR TESTING PANEL

- 1) It cover no load test, full load test, lock rotor test ,temp. Rise test.
- 2) Provision of Change Over Switch for 1-Phase, DOL, Star-Delta Starter as required.
- 3) Accuracy class 0.5, 0.2.
- 4) It Measure voltage , current , frequency, wattage , rpm, torque, Efficiency of Motor, Input Power, Output Power.
- 5) Customised for motor & Alternator testing.
- 6) C.T. Range selection for Accuracy measurement.
- 7) Range from 0.5 HP TO 200 HP.

COIL WINDING MACHINE

In order to provide best quality Motor Coil Winding Machine to our clients, we test them properly at various levels. These Motor Coil Winding Machine are highly reliable and advance in technology that growing their demands rapidly.

FEATURES :

- 1) Superlative performance
- 2) Best grade material
- 3) Auto stopping with DC Braking
- 4) Variable Speed Control
- 5) Flexible Turn setting in microcontroller or plc

VFD PANEL

VFD Control Panel is mainly used for reducing energy wastage, Energy saving , Speed control with smooth operation of motor and variable operation as per customer application. Provided panel is manufactured at our advanced manufacturing unit under the supervision of our technocrats by making use of high grade components and contemporary technology.

Application :

Normal duty: application with Variable torque like Pump, Fan, Blower.

Heavy Duty: Application with constant torque like Crane, Hoist, Lifts, Mills, Crushers, Conveyors, Feeders, Press, Textile, Agitators, Mixers, CNC Machine, Centrifuge, Packaging, Printing etc.

PLC PANEL

PLC Automation Panel are one of the most important and efficient kinds of control panels. Which are generally used in variety of electronic and electrical circuit fittings. Control panel consist of a controller. Controller may be PLC, DCS, relay or some other type. Instruments are normally connected to control panel. Control Systems Engineers have developed communication software's for remote communication of the PLC Panels in various different protocols. To effective control of the system.

ENCLOSURE

Fabricated in 1.6 mm CRCA Sheet Steel, Hinged door opening angle 180deg., IP-55 & IP-66 Degree of protection, Cable gland plate 2mm thick provided at bottom, Mounting plate made up of 2.00 mm.

Sizes

Single Door Box (W x L x D)

Sizes	Cat No.
200 X 200 X 150	CES-0010
200 X 300 X 150	CES-0020
250 X 300 X 150	CES-0030
300 X 300 X 150	CES-0040
300 X 300 X 200	CES-0050
300 X 400 X 150	CES-0060
300 X 400 X 200	CES-0070
400 X 300 X 150	CES-0080
400 X 300 X 200	CES-0090
400 X 400 X 150	CES-0100
400 X 400 X 200	CES-0110
400 X 500 X 150	CES-0120
400 X 500 X 200	CES-0130
400 X 600 X 200	CES-0140
500 X 600 X 200	CES-0150
500 X 700 X 200	CES-0160
500 X 700 X 300	CES-0170
600 X 400 X 200	CES-0180
600 X 400 X 300	CES-0190
600 X 500 X 200	CES-0200
600 X 600 X 300	CES-0210
600 X 700 X 200	CES-0220
600 X 800 X 200	CES-0230
600 X 800 X 300	CES-0240
600 X 1000 X 200	CES-0250
600 X 1000 X 300	CES-0260
800 X 800 X 300	CES-0270
800 X 1000 X 200	CES-0280
800 X 1000 X 250	CES-0290

Sizes	Cat No.
1000 X 800 X 200	CES-0320
1000 X 800 X 300	CES-0330
1000 X 1000 X 300	CES-0340
1000 X 1200 X 300	CES-0350

FURNACE CONTROL SYSTEM

Our organization holds expertise in offering an exclusive range of OVENS & Furnace Control Panel to our clients, which is available in numerous specifications. These Thyristor controlled panels avoid temperature over shooting. Thyristor control panels are designed for use with radiant heating cassettes. We also provide SSR and contactor controlling to our clients as per their requirement.

MANAGEMENT :

The successful professional personnel are the core of company rate management from different walks of life, specialized in respective field of engineering, technology.

OUR STRENGTH :

Sub-Contractors having total strength of 15 – 20 persons including skilled, Semi-Skilled, unskilled categories and specialized in different trades and Electrician, winders are available on immediate call. In addition to above Technical and Administration Staff, we have got adequate office staff and Technical hands at Shop Floor and Work-shop to shoulder work responsibilities.

OUR CLIENTS :

- 1) CG POWER & INDUSTRIAL SOLUTIONS LTD, AHMEDNAGAR.
- 2) CG POWER & INDUSTRIAL SOLUTIONS LTD, GOA
- 3) EXIDE INDUSTRIES LTD
- 4) SURVI SOLAR
- 5) RECHYAM RPG
- 6) TATA GY BATTERY
- 7) HEATCON SYSTEMS
- 8) S. K. ENTERPRISES.
- 9) Laxmi Hydraulics Pvt. Ltd.
- 10) L&T
